Conference Attended: International Meeting on Simulation in Healthcare: Delivers

Date: January 19 – March 31 2021

Department/Unit: College of Nursing

Award Amount: \$250

Briefly summarize how your attendance at the conference enhanced your professional development as a teaching in higher education.

This funding allowed me to attend the virtual International Meeting on Simulation in Healthcare. The theme was Simulation: Bringing Learning to Life. This meeting gave me the opportunity to build simulation education expertise and the opportunity to meet virtually with simulation leaders from around the world. I specifically learned more about interprofessional simulation design and debriefing and information on how to apply for simulation education fellowships.

How have you been able to share what you learned about teaching with the campus?

I have been able to share what I learned through presentations given at the University of Iowa Health Care (UIHC) Team Simulation Design and Debriefing (TSDD) course. I gave presentations on giving feedback during debriefing and facilitated the design of interdisciplinary simulations that were executed at the end of the two and a half day course.
